Dear Mr. Nuzzo,

In the past, we have experienced great difficulty and in many cases, zero results, trying to contact some of the larger companies in the Orlando and surrounding cities.

With BellSouth's Search Engine Package, we are now receiving calls from some of the very companies that would not have opened the doors for us. Having BellSouth's Search engine package is like having a marketing sales agent on the street knocking on doors for a fraction of the cost.

Sincerely,

Joseph Gonzales,
